AIA strongly supports “Democracy in Design Act” - AIA

For the 2018 edition of the Guidelines for Design and Construction documents, the Facility Guidelines Institute developed three books: a volume for hospitals, a new volume for outpatient facilities, and the volume for residential health, care, and support facilities. Each provides basic information on planning, design, construction, and commissioning as well as minimum design requirements for particular facility types.

FGI continually monitors adoption of the Guidelines by state, federal, and independent accrediting organizations. Because each state uses the Guidelines differently and may adopt its requirements for different facility types, collecting up-to-date information on state requirements can be difficult. To help in this endeavor, FGI has created an interactive adoption map.
