Icarus Edge Time Greene Brian

A: The genesis, if you will, of the design and art direction of Icarus at the Edge of Time represents (for me), a prime example of design challenges at its purest and most exhilarating. In the spring of 2007, Marty Asher (Brian Greene's editor at Knopf) brought me Brian's manuscript of a fable of a teenage boy-genius (Icarus) who lives on a starship heading back to Earth after a generations-long mission and, against the stern warnings of his scientist father, commandeers a sort of pod-ship ...

Icarus at the Edge of Time, with Philip Glass - Brian Greene

A board-book for all ages, Briane Greene's Icarus at the Edge of Time is a futuristic reinvention of the Greek myth of Icarus, the boy who disregarded his father's advice, and flew too near the sun. Like his ancient counterpart, our Icarus is the son of innovative men, who finds himself trapped in a prison of his father's making.

Icarus at the Edge of Time by Brian Greene

The result is unexpected and startling. Icarus returns to find his world profoundly and forever transformed. In Icarus at the Edge of Time Brian Greene has given us a fable about fathers and sons, curiosity and wisdom, and the complexity of the universe as only a physicist of his range and lucidity could. Designed by Chip Kidd - with full-color images from the Hubble Space Telescope - it is destined to be a classic for all ages.

Something always bothered Brian Greene about the story of Icarus. As the ancient Greek myth goes, Icarus and his father, the inventor Daedalus, are trying to escape Crete. Daedalus builds them each a set of wings from feathers and wax to fly to safety. However, Icarus ignores his father's advice not to fly too close to the sun.
