It's important for firms to think about how to trade their way out of this crisis, and not just how they traded into it, if they want a smooth transition to the new normal post virus. More recently we pointed out that we have a perfect storm for innovation. Demand has collapsed for the old thing while new demand is popping up as we adapt, and the government is (effectively) subsidising innovation by providing unsecured loans and underwriting payroll (via JobKeeper).

extinction to its current path of prosperity and growth – and a new direction.

Innovating Out of Crisis - Drew Boyd

However, as a result of the crisis being faced now, people will hopefully all become more united by the pursuit of collective well-being.

Innovating—individually and collectively—could change the future. And hopefully the changes in attitudes, mindsets, and energies that are uniting people now will persist once this emergency is over.
