Brewer's Introduction to Managerial Accounting has earned a reputation as the most accessible and readable book on the market. Its manageable chapters and clear presentation point students toward understanding, just as the needle of the compass provides direction to travelers.

Introduction to Managerial Accounting: Brewer, Peter ...

Managerial accounting is the branch of accounting that deals with providing accounting information that is useful to managers in decision-making. Unlike financial accounting, it does not focus on following reporting standards. Rather, it makes use of principles from different fields of business to cater to management needs.
