The Indirect approach is a military strategy described and chronicled by B. H. Liddell Hart after World War I. It was an attempt to find a solution to the problem of high casualty rates in conflict zones with high force to space ratios, such as the Western Front on which he served. The strategy calls for armies to advance along the line of least

When considering potential threats, today's strategic leaders should always consider one of the "less than obvious" aspects of international power: the Indirect Approach. Strategy is about power and power is directly related to each nation's ability to focus and project its resources to achieve desired effects over time, but many nations
